

MCBC Advocacy Director Deb Hubsmith will join Advocacy Coordinator and Adjunct Geography Professor Andy Peri in presenting "Caring for the Earth by Being Part of the Green Transportation Revolution" at the College of Marin Earth Day 2010 festival on April 24 at 12:00 Noon in Science Center SC101. The presentation will include a summary of how transportation policy affects the environment, followed by an interactive discussion on transforming both our personal behavior and what could be done in Marin County, California and nationally to create a transportation revolution that promotes livability and sustainability.
